

# NEW LABOR LAW IN EFFECT NEXT WEEK

## Work Permits for Children Will Not Be So Easily Obtained.

The new Child Labor Law of West Virginia recently added to the old one comes into effect on May 11 and already persons are applying at the office of the County Superintendent of schools and also at the City Superintendent's office for permits which are to be found at either of these places. The new child labor law is said to be the best child law which West Virginia has had for a long time. It accords nicely with the federal child labor law and works admirably with the school attendance law, requiring that a child get a proper record of his birth which shall be indisputable. No longer can a parent or other person concerned, procure employment for a child merely through personal affidavit that the child is of lawful age to work. Many foreigners have procured work for their children merely by stating that such children were of the proper age, when it was well known that the children were not old enough according to law.

There are four different kinds of permits waiting to be issued at the present time: an age certificate, special work permit, regular work permit and a vacation work permit. The age certificate will be issued at the request of employer desirous of employing a child who represents his or her age to be sixteen years or over. It is filled out with names of parents, date and place of birth and certificates that prove of his age has been recorded. A copy of each age certificate of every child is forwarded to the State Commissioner of Labor at Charleston within four days of its issuance one copy is kept in the office where it was issued here, and another is given the child.

The Special Work Permit gives the name, date and place of birth, parent's and employer's address. It concerns the child over 12 years of age to be employed in mercantile establishments and business offices outside of school hours. Such a child cannot work more than six hours a week, 48 hours a week, eight hours in one day, nor before six a. m. Nor after seven p. m.

The Work Permit for a child between 14 and 16 must show proof that child is not under 14 years of age, is physically fit, has received the proper schooling which means that he must know how to read and write and know subject belonging to the first six grades in school. On this permit is also written the name of the employer desirous to employ him. The employer agrees to return the permit within two days of the termination of such child's employment. Such a permit issued with the agreement of the employer that the child may not work more than six days a week, more than 48 hours in a week, more than eight hours a day nor before six a. m. or later than seven p. m. It cuts out entirely any night work. The Monongah Glass Company have to employ no child under 18 years of age. These people have more demand for the work of children than any other place of employment in the city.

The Vacation Work Permit pertains to children of 14 or over. Every vacation work permit shall be issued only on the day the public schools close for regular session. The same regulations as to hours allowed children in which to work applies to the vacation permit.

# Build a Home as a Plan for Saving Get the Prosperity Habit

The best savings bank in all the world is your own home! The best way to accumulate wealth, to get ahead in the world and become independent, is to own a home for yourself and then regularly and methodically pay your money into it.

In buying a home you are supplied with a reason for saving—a tangible objective which makes it easy to save and serves as a check to unreasonable spending. Putting your money into a home promotes a sensible and systematic method of living and keeps always before you the real evidence that each dollar laid away is not only a dollar saved, but a dollar invested in something from which you will realize a lifetime of good.

You, who are renters, could own yourselves a home and pay for it with exactly the same money each month that now goes into your rental. Then, in a few years, instead of having nothing, you would have a home, paying dividends to yourself and all of yours, not only in actual cash from rental saved, but dividends of happiness and contentment.

In buying your own home you not only provide yourself with a sensible method of saving, but you are doing your duty toward your wife and little ones. A home is the natural birthright of your children. It means not only present comfort and happiness and security but is a safeguard against future misfortune—a secure abiding place for your little ones for the years to come.

No man really wants to go through life dependent for the shelter of himself and his loved ones upon his

daily work. Yet this is really the case among so many renters. What would happen if your earnings should cease—perhaps forever? Would your family be homeless,—or safe and secure in a home of their own?

For the present comfort and safety of your family it is your business to begin saving today. For their future welfare it is right that you come to the full realization of the actual danger of useless spending. And the surest, safest, best way to save is to begin paying for a home at once!

Build now! Nothing can be gained by waiting. All authorities are agreed that you can build as economically now as at any time in the future that can yet be foreseen.

Choose a place in the attractive Speedway Terrace section of Fairmont. Either buy one of our sturdy, comfortable ready-built houses or buy one of our desirable lots and build a home according to your own plans. DO IT NOW for if ever there was a time when home-owning would benefit a man it is right now.

J. Morgan Moran, who is well known in Fairmont and is acquainted with local needs, has become associated with The Greater Fairmont Investment Co., as Sales Agent, and will devote his entire time helping to overcome the house famine in the community. When you desire detailed information about our homesite properties or our ready-built houses, Mr. Moran will gladly meet you at our office during the daytime or at your home any evening by appointment.
